

Implementation

Children are taught SEAL on a weekly basis in their classes. Themes are further explored and reinforced in whole school assemblies. They are taught using the Primary National Strategy scheme which is based around half termly themes. Although SMSC and British Values are not taught as discrete lessons, the relevant skills are taught throughout SEAL as well as the wider curriculum. As part of the two-year rolling program, in RE, all key stages have clear links with British values and SMSC. Classes use weekly Picture News to discuss current events in the news and discuss British Values that it links to.
