

## **Intention**

Our intention, is to raise the profile of the Social, Emotional Aspects of Learning (SEAL) and British Values status within our school. We aim to ensure that all children have the opportunity to experience many 'real life' experiences whether that be onsite or out of school. We also want to ensure that Social, Moral, Spiritual, Cultural (SMSC) aspects of learning are at the heart of all teaching and not just in stand-alone lessons. By the end of primary school, we want all children to understand the importance of SEAL, SMSC and British Values and the effects it can have on life in and out of school. Ensure that our children are more experienced on how to deal with specific situations and make informed decisions in later life.
